ONLINE SAFETY PRESENTATIONS THAT EMPOWER

VALUE-DRIVEN MEDIA USE

Empowering kids and teens to navigate the digital age safely and responsibly.

“
Lisa and Jason Frost empower teens to make healthy choices online that support both their short and long-term goals.”
- Donna Rice Hughes, Internet Safety Expert, Author, Speaker and President of Enough Is Enough”

VALUES SEND US UPSTREAM IN A DOWNSTREAM CULTURE

Values empower kids and teens to make choices based on what they 'believe' over how they 'feel.'

1

VALUES CLARIFY CHOICES

This is 'who I am', rather than, this is what I am 'expected to do'..

2

NOT ALL VALUES ARE ARE EQUAL

Self-indulgence is the governing value of the online world because it sells.

Valuing people over pixels goes against the current and is proven to deliver real satisfaction.

3

REACHING OUR GOALS STARTS WITH KNOWING OUR VALUES

What values will be your rocket fuel to achieving your dreams, and which ones will steer you off course?

4

THE WHY FACTOR

Youth understand where their tech choices are leading them.

PIONEERING

Youth learn to protect their YES through healthy tech habits and boundaries.

OWNERSHIP

Youth are empowered to be leaders, not followers in the digital age.

VALUES

Youth discover their core values that govern their online choices.
